I got a rash on both my hands. The party. My son in laws big party beer? But he made a good rule if you drink you have have to have some one drive you back. They had a bonfire roasting marshmallows. Explain understood stand explain breakfast are passengers waiting can you spread those fat thighs so I can stick my cock in your cunt. You have such a sexy fat voice do me a favor and clean my balls with your tounge. I could fuck you so good with your youth and peace conference rainbow umbrella dyed hair and wooble in each step. Sit across from heat & desire wiggle ankle & cute foot. Could I remove your glasses coat and panties. Could unfold those knee cap and wipe away our shy tension. The awkward feeling. The desire to have our tounges meet. You are leaving goodbye. Thank you. It is a great. Don't be nervous. If you part those cheeks so I can squeeze my banana into yous split. Fall on my face without manners or proper grammer. Fuck the world you are almost done. Shaky holes & I will nod my sorrow in your direction. I get the one right on st mary & sliverbell. Raddle hips and turn back the clock for day light savings. If you went down on me & your husband during a carwreck I could acciedently choke your throat as you bite off my cock. Put it in broadway. Are you going my way, fucking broad! Big heavy waste of sperm shot up in you.

Do you know your rites; sack ree fish sure rights. State meants and voices sounds & color converge. Licking the inner layers of skin. Swallowing the fluid warmth. Curl up next to a cat & fortget & ignore the programmed poverty. The cheap sales pitches and hope-less begging. If there was someone to fuck without the counter actions and emotional baggage. Would I overcome this fear.

She waves her hand at my role. Its my profession to wave back. Common orders such as have a good day are disqusting. The stop of abuse and internal conflict the abandonment is created in one's own mind when people tell me of what I am doing and they are hurting themselves into a hurling abyss to justify their anger their anger the irrational pain instead of looking face first to the pain blockage to unlock then re-leaf. It's a choice just as me getting out of a car who the driver keeps reliving past trauma.

How to dispose of a dead body? How to let go of a vampire's fangs from my neck? How do I play music to those who are begging haggling whoring pimping beating their mouth words for money from me that I owe others? How do I grow blossoms without sunlight clean air or water? It is only a challenge just like the torment the little kitty has to adapt to from the bully dogs coyotes hawks and other bigger meaner cats. I miss my family. I miss my establishment of artistic endeavors.

There must be an injured party. When a pity party feels abandoned because they refuse to liberate themselves from pain. It all does not matter as I make peace and in their restless mind make an enemy out of me because they can't find acceptance for themselves and push their own pain on my actions their own feelings are made from their own thoughts. It is insane how one chooses to only believe in their memory rather than communicate
